Founded in 1989, The Healing Place has become one of the nation’s most effective long-term, social model recovery programs. For over 25 years, we’ve helped countless men and women beat addiction. Heroin and drug addictions are more than personal problems; they’re community problems — with community solutions. This symposium is one more way we educate and help our city in the fight against heroin addiction.

THE HEALING PLACE IS A PLACE WHERE HOPE IS FOUND AND CHANGE HAPPENS!
WHO SHOULD COME?
Physicians, social workers, counselors, human resources personnel, and certified drug and alcohol counselors who work with families and clients struggling with addiction. Families who deal with addiction are also encouraged to attend.

WHY ATTEND?
Our community has been overwhelmed with the explosion of heroin use. Although the media is covering the topic extensively, this conference will help drive the focus back to the basics of addiction. Heroin: About Face provides an opportunity to gain information on issues related to the heroin crisis and find out more about what is being done to combat it.

LEARNING OBJECTIVES
1. Discuss the disease of addiction and how to recognize early signs for adults and adolescents.
2. Discuss the impact of heroin addiction in our communities.
3. Identify community resources and programs targeting heroin and addiction concerns.

CONTINUING EDUCATION CREDITS
The Heroin: About Face Symposium has been approved for 5.75 continuing education credits. For disciplines accredited, please visit www.thehealingplace.org/heroin
